Introduction

The Scholarship Fund was created on February 26, 1996 and is primarily funded by special events sponsored by the Fund (i.e. dinner dance, family picnic, golf outings) and the sale of merchandise. The program was instituted to enable families to afford the rising cost of college and university tuition. The Scholarship Fund awards a limited number of scholarships each year to reward students who have worked hard toward achieving their goals and to encourage them to continue to strive for excellence.

Fund Description

The I.U.O.E. Local 94, 94A, 94B Scholarship Fund was created to provide scholarship awards for dependent children of members of the International Union of Operating Engineers, Local Union 94, 94A, 94B who meet the requirements for an award. Such scholarships provide for the payment of tuition and related expenses for study at a recognized undergraduate college as described below:

A Scholarship Award may be granted to high school graduates who have been accepted by an accredited junior college or a four year college or university. This award can be used to help pay tuition, room and board, and book costs for full-time study at an accredited junior college or four year college or university. Full-time study is determined by the college or university which the child is enrolled in. The scholarship is worth up to \$2,000 per year for up to four years of undergraduate study. The scholarship will be paid each school year that the student proves full-time enrollment, remains in good academic standing, and has eligible educational expenses.

Number of Scholarships Awarded

The number of students to be awarded scholarships varies from year to year, based upon the current and projected financial status of the Trust Fund. The Fund must have sufficient funds to make a four year (4-year) commitment to each scholarship winner.

Scholarship Payment

Each scholarship will be for \$2,000 per year for four years for a total of \$8,000. The amount of the scholarship may be increased or decreased from time to time by action of the Trustees.

In order to receive the \$2,000 annual scholarship the recipient must submit annually documentation supporting the payment of tuition, room and board, and book costs etc. to the satisfaction of the Trustees.

Scholarship winners who complete four years of undergraduate studies in three years and have earned all credits required for graduation within that three year period because they have attended classes during the summers or have taken on an extended course load during the regular school year, will receive the fourth year's allotment upon submission to the Scholarship Office of their official final transcript.

How Scholarships are Determined

Scholarships applications and criteria are reviewed by a third party. This third party reviews the applications and selects the scholarship recipients based on the applicant's high school academic achievement, SAT scores, involvement in school activities, leadership in the community and a personal essay describing educational objectives and career goals.

Deferring Scholarships

Scholarship Recipients who want to delay enrolling in college, or who want to take time off from school once they have enrolled can have their scholarship deferred. One deferral, for up to one school year, will be granted. Deferral requests must be made in writing to the Board of Trustees.

The Board of Trustees may grant additional deferrals, or deferrals longer than one academic year in cases of extreme financial hardship (as determined by the Board).
