Re: Summary of Benefits and Coverage – Basic Retiree Coverage for the Commercial Division

Date: November 17, 2014

Enclosed you will find the Summary of Benefits and Coverage ("SBC") for the Health and Benefit Trust Fund of the International Union of Operating Engineers Local 94-94A-94B, AFL-CIO ("Fund") that pertains to the benefit coverage option offered to retirees in the Commercial Division. Accordingly, this SBC summarizes available benefits for this Basic retiree coverage option; and is intended to comply with the applicable disclosure requirements under the Patient Protection Affordable Care Act ("ACA" or the "Affordable Care Act"). Please share this SBC with your family members who are eligible for this health coverage under the Fund.

Please note that if you have coverage under a different coverage option, you will receive a separate SBC describing that coverage. As such, there are separate SBCs that describe the Fund's benefits for the Commercial Active, Commercial Retiree PPO, School Active, Commercial Medicare Retirees and School Retirees.

The federal government developed a model SBC form primarily to help people who will be shopping for individual health coverage when the health care exchanges opened in 2014. The SBC is designed so that individuals can conduct an "apples to apples" assessment of the material benefits and costs when comparing different health plan coverage. For that reason, we were not allowed to customize much of the enclosed SBC and, therefore, some aspects of it may not be relevant to the Fund's benefit coverage option for the Commercial Division.

In addition, as indicated above, please note that other health coverage alternatives may be available to you through the Health Insurance Marketplace. In the Marketplace, you can see what the premium, deductibles and out-of-pocket costs for such alternative coverage will be before making a decision about whether to continue your coverage under the Plan or enroll in a health coverage alternative offered in the Marketplace. If you decide to keep you coverage under the Plan after you consider the other options in the Marketplace, you don't need to take any further action other than to keep making your required monthly premium payments on time to the Plan.

SBC Disclosure Requirement under ACA

Generally speaking, the Affordable Care Act has some very strict disclosure requirements for the SBC - the maximum number of pages, the font size, the colors, etc. To best understand the benefits provided by the Fund's benefit coverage option for the Commercial Division, we recommend that you refer to the benefit materials that you are use to seeing from the Fund - our website, www.local94.com, the Open Enrollment Materials, the Summary Plan Description ("SPD") and other Fund documents - in conjunction with your review of the enclosed SBC and for comparative purposes to SBCs issued by other plans or insurers.

In accordance with the applicable disclosure requirements under ACA, the SBC includes two examples - one for having a baby and one for managing type 2 diabetes. The examples show the health care costs for you and the Fund associated with each of these two situations. As you read these examples, it's very important to note that these costs are national averages; they do not reflect what the actual services might cost in your area. Similarly, your course of treatment might also be very different depending on whether you receive care from an In-Network Provider or an Out-of-Network Provider (the examples only show costs for In-Network Providers), your doctor's approach, your age, your other health issues, and many other factors. These examples are included to help someone compare how different health plans might cover the same - condition not for predicting your own actual health care expenses.

You may find that the SBC discusses the Fund's benefits in ways that may seem unfamiliar to you. For instance, there may be terms you haven't seen before, or terms that you have seen before but are being used differently. The SBC also refers to a "Glossary of Health Coverage and Medical Terms," which cannot be customized for the Fund. If you read the SBC or the Glossary and find yourself confused at any time, we recommend that you refer to your SPD, the Local 94 website (www.local94.com) and the other materials describing your benefits that you have received or may be eligible to receive from the Fund; or contact the Fund Office at (212) 541-9880.

For More Information

Please keep this SBC with your copy of the SPD for easy reference. Please note that receipt of this document does not constitute a determination of your eligibility for benefits under the Fund. If you have any questions about Fund-provided coverage, please call the Fund Office at (212) 541-9880. If you have general questions about the SBC or the Glossary, you may want to contact the Employee Benefits Security Administration of the U.S. Department of Labor at (866) 444-3272 or www.dol.gov/ebsa, or the U.S. Department of Health and Human Services at (877) 267-2323 Ext. 61565 or www.cciio.cms.gov.

IMPORTANT NOTICE REGARDING THE FUND'S GRANDFATHERED PLAN STATUS

The Board of Trustees believes that the Fund is a "grandfathered plan" as such term is defined under the Affordable Care Act. As permitted by this law, a grandfathered health plan can preserve certain basic health coverage that was already in effect when the Affordable Care Act was enacted. Being a grandfathered health plan means that the medical coverage that you have elected under the plan may not include certain consumer protections of the Affordable Care Act that apply to other group health plans, for example, the requirement for the provision of preventive health services without any cost sharing (i.e., copayments, coinsurance, deductibles). However, grandfathered health plans must comply with certain other consumer protections in the Affordable Care Act, for example, the elimination of lifetime limits on benefits and extension of coverage to dependents until age 26. Questions regarding which protections apply and which protections do not apply to a grandfathered health plan and what might cause a plan to change from grandfathered health plan status can be directed to the Fund Administrator during normal business hours at: 331-337 West 44th Street, New York, New York, 10036, telephone number: (212) 541-9880. You may also contact the Department of Labor at (866) 444–3272 or www.dol.gov/ebsa/healthreform. This website has a table summarizing which protections do and do not apply to grandfathered plans.

This notice and the enclosed SBC contain highlights of certain features of the Fund's benefit coverage option for the Commercial Division. Full details of these benefits are contained in the Fund's SPD and other official plan documents (collectively "Official Plan Documents"). If there is a discrepancy between the attached SBC (or this letter) and the Official Plan Documents, the Official Plan Documents will govern in all cases. The Trustees have the sole an absolute discretion and reserve the right to amend, modify, or terminate the Fund at any time.

This is only a summary. If you want more detail about your coverage and costs, you can get the complete terms in the policy or Plan Document at www.Local94.com or by calling 1-212-541-9880.

Important Questions	Answers	Why this Matters:
What is the overall deductible?	**$0**	See the chart starting on page 2 for your costs for services this plan covers.
Are there other deductibles for specific services?	Yes. Home Health Care: $50 per person when care is rendered without prior hospitalization or through a non-participating agency. There are no other specific **deductibles**.	You must pay all of the costs for these services up to the specific **deductible** amount before this plan begins to pay for these services.
Is there an out–of–pocket limit on my expenses?	No.	There's no limit on how much you could pay during a coverage period for your share of the cost of covered services.
What is not included in the out–of–pocket limit?	This plan has no **out-of-pocket limit**.	Not applicable because there's no **out-of-pocket limit** on your expenses.
Is there an overall annual limit on what the plan pays?	No.	The chart starting on page 2 describes any limits on what the Plan will pay for *specific* covered services, such as office visits.
Does this plan use a network of providers?	Yes. For a list of **network providers**, see www.Local94.com or call 1-212-541-9880.	If you use an in-network **provider**, this plan will pay some or all of the costs of covered services. Plans use the term in-network, **preferred**, or participating for **providers** in their **network**. See the chart starting on page 2 for how this plan pays different kinds of **providers**.
Do I need a referral to see a specialist?	No.	You can see the **specialist** you choose without permission from this Plan.
Are there services this plan doesn't cover?	Yes.	Some of the services this plan doesn't cover are listed on page 6. See the Plan's SPD for additional information about **excluded services**.

- **Copayments** are fixed dollar amounts (for example, $15) you pay for covered health care, usually when you receive the service.
- **Coinsurance** is *your* share of the costs of a covered service, calculated as a percent of the **allowed amount** for the service. For example, if the plan's **allowed amount** for an overnight hospital stay is $1,000, your **coinsurance** payment of 20% would be $200. This may change if you haven't met your **deductible**.
- The amount the plan pays for covered services is based on the **allowed amount**. If an out-of-network **provider** charges more than the **allowed amount**, you may have to pay the difference. For example, if an out-of-network hospital charges $1,500 for an overnight stay and the **allowed amount** is $1,000, you may have to pay the $500 difference. (This is called **balance billing**.)
- This plan may encourage you to use Participating **providers** by charging you lower **deductibles**, **copayments** and **coinsurance** amounts.

Does this Coverage Provide Minimum Essential Coverage?

The Affordable Care Act requires most people to have health care coverage that qualifies as "minimum essential coverage." **This plan or policy does provide minimum essential coverage.**

Does this Coverage Meet the Minimum Value Standard?

The Affordable Care Act establishes a minimum value standard of benefits of a health plan. As of the date of the issuance of this SBC, based on the current guidance, it is our understanding that whether the plan meets the minimum value standard does not impact an eligible retiree's ability to seek health coverage in the Exchange or receive premium assistance to lower the costs for such coverage; provided that he or she is not enrolled in this Plan.

About these Coverage Examples:

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

This is not a cost estimator.

Don't use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples, and the cost of that care will also be different.

See the next page for important information about these examples.

Questions and answers about the Coverage Examples:

What are some of the assumptions behind the Coverage Examples?

- Costs don't include **premiums**.
- Sample care costs are based on national averages supplied by the U.S. Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from in-network **providers**. If the patient had received care from out-of-network **providers**, costs would have been higher.

What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how **deductibles**, **copayments**, and **coinsurance** can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

Does the Coverage Example predict my own care needs?

✘ **No.** Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

Does the Coverage Example predict my future expenses?

✘ **No.** Coverage Examples are **not** cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your **providers** charge, and the reimbursement your health plan allows.

Can I use Coverage Examples to compare plans?

✓ **Yes.** When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

Are there other costs I should consider when comparing plans?

✓ **Yes.** An important cost is the **premium** you pay. Generally, the lower your **premium**, the more you'll pay in out-of-pocket costs, such as **copayments**, **deductibles**, and **coinsurance**. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
